PROVISIONS

All conditions and requirements contained in reports of examination or permits previously issued apply to this superseding certificate unless specifically noted below.

This authorization changes the point of diversion and the place of use of the subject certificate as provided by Chapter 90.03.380 RCW, and will supersede Certificate of Water Right recorded in Volume 4 of Water Right Certificates at Page 44, dated April 19, 1929, and Certificate of Change recorded in Volume 1 of Changes at Page 417. Certificate No. 44 was issued by a decree of the Superior Court of the State of Washington in and for Walla Walla County, made and entered on the 12th day of September, 1928, and recorded in Vol. 16 of the Superior Court Journal of said County at Page 1.

When the supply of water for irrigation purposes is insufficient in the Walla Walla Valley to fill any right in the above-mentioned decree, the owner of such right is entitled to divert water during the period of October 1 to April 1. The total diversion shall not exceed 5 acre feet per acre for any year beginning October 1.

The total number of acres that may be irrigated under Walla Walla Adjudicated Certificate Nos. 44, 76 and 202 within the area herein described as the place of use shall not exceed 66 acres in any one irrigation season. The total number of acres that may be irrigated under the above-described Adjudicated Certificates and Surface Water Certificate No. 6802 shall not exceed 237 acres.

An approved measuring device shall be installed and maintained for each of the sources identified herein in accordance with the rule "Requirements for measuring and Reporting Water Use", Chapter 173-173 WAC. Water use data shall be recorded weekly and shall be submitted annually to Ecology by January 31st, of each calendar year.

The rule above describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition Ecology for modifications to some of the requirements.

At a minimum, the following information shall be included with each submittal of water use data: owner, contact name if different, mailing address, daytime phone number, WRIA, Permit or Certificate No., source, name, annual quantity used including units, maximum rate of diversion including units, and period of use.

In the future, Ecology may require additional parameters to be reported or more frequent reporting.

Ecology prefers web based data entry, but does accept hard copies. Ecology will provide forms and

The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.

This superseding certificate of water right is specifically subject to relinquishment for non-use of water as provided in Chapter 90.14 RCW.

Given under my hand and the seal of this office at Spokane, Washington,
this 14th day of May, 2003.

electronic data entry information.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the records of water use that are kept to meet the above conditions, and to inspect at reasonable times any measuring device used to meet the above conditions.

The amount of water granted is a maximum limit that shall not be exceeded and the water user shall be entitled only to that amount of water within the specified limit that is beneficially used and required for the actual crop grown on the number of acres and the place of use specified.

This authorization to make use of public waters of the State is subject to existing rights, including any existing rights held by the United States for the benefit of Indians under treaty or otherwise.

This authorization is subject to Washington Department of Fish and Wildlife juvenile salmon and gamefish screening criteria (pursuant to RCW 77.16.220, RCW 77.55.040 and RCW 77.55.070). Please contact the Department of Fish and Wildlife, 600 Capitol Way N, Olympia, WA 98501-1091, Attention: Habitat Program, Phone: (360) 902-2534, or call (509) 575-2734 for the Yakima Construction Shop to obtain technical assistance for your project. Juvenile salmon screening criteria are attached to the Report of Examination if applicable to your diversion.

Use of water under this authorization shall be contingent upon the water right holder's utilization of up to date water conservation practices and maintenance of efficient water delivery systems consistent with established regulation requirements and facility capabilities.
